Hiring children to do their duty should be placed as a statutory offense against the peace and dignity of the state. ## HOW CHILDREN GROW

Children grow by nourishment—not overloaded stomachs or rich foods but qualities that are readily converted into life-sustaining blood; too often their digestive powers cannot procure these qualities from ordinary foods which results in weakness, dullness and sickness. If your children are under-size, underweight, catch cold easily, are languid, backward, pale or frail, give them Scott's Emulsion which is pure medicinal nourishment. It sharpens the appetite, builds healthy flesh, firm muscles and active brains. Scott's is growing-food for children. Refuse alcoholic substitutes.

### Bucolic New York

Miss Rose O'Neil, originator of the "kewpies" and some other commercialized little folks, has gone to New York. Rose who has been living in the exciting realms of woods and razor backs in the Ozarks, finds that New York city is a remarkably tame and bucolic place. She finds that New York is a potato patch or woodland; that the women are sprightly nymphs; that the men are mild and polite fauns; that the people browse on tender herbage and between herbs; tango and perform other mild and bucolic exercises. In fact she finds everything so quiet, homelike and trustful in New York that she wonders how she ever lived in the noise and strife of the hurrying life of the Ozark mountains.
